BC2245	12.7mm Mounting Bracket w/3 screws	8	Blue
2248	16mm Mounting Plate w/1 Bracket	6	Orange/Black
BC2250	16mm Mounting Bracket w/3 screws	6	Black

Micro-Ducts Mounting Bracket

At MDU (Multi-Dwelling Unit) locations, securing and organizing Micro-Ducts is essential to prevent damage and fiber breakage. B&C's bracket system keeps Micro-Ducts firmly in place and neatly organized, with each modular bracket securely holding 6-8 Micro-Ducts. Brackets can be customized to fit the specific requirements of each site.

Depending on your specific project applications, you can choose from any of our three Micro-Ducts Mounting Bracket (8.5 mm, 12.7 mm, 16 mm). The brackets work with both the Riser and Plenum rated Micro-Ducts.
